Korg – New Product! Swing Sofa

Design Thomas Bernstrand

In response to an increased demand for swing sofas, the popular Korg series by Thomas Bernstrand is now complemented with a much-anticipated swinging sofa as an addition to the existing collection. The swing sofa is suspended from two bars attached to a sturdy A-shaped steel frame that is bolted to the ground. The mesh in the Korg series is valuable for many open outdoor spaces, making the furniture both low-maintenance and dry, as water doesn't accumulate in ways it does on larger surfaces. The seat and frame can be ordered in different colours for an extra exciting expression.

CERTIFICATION

Dimensions and weight

Stand

Length: 220 cm

Width: 114 cm

Height: 182.5 cm

C-C: 206 cm x 100 cm

Sofa

Width: 130 cm

Depth: 61 cm

Seat height: 45 cm

Seat depth: 44 cm

Back rest: 52 cm

Material dimensions

Stand: Ø 50 mm

Luminaire: Ø 35 mm

METAL SURFACE FINISH

RAL 6025

C for any color other than standard, starting cost is added.

Standard colours

RAL 6025

RAL 9005

Materials and surface treatments

Steel

Nola uses high-quality steel with good strength in our products. Steel rusts if left untreated and must therefore be surface treated.

Electrogalvanized

Electrogalvanizing (also known as zinc plating) provides corrosion protection through the sacrifice of zinc ions. It is created via a zinc coating on the steel using an electric current.

Powder coating

Powder coating is a coating that is applied as a free-flowing, dry powder. Unlike conventional liquid paint, powder coating is usually applied electrostatically and then cured under heat or with ultraviolet light. The result is an even, hard-wearing coloured surface with the desired gloss level.

Assembly and placement

Surface mount. Can be bolted above ground, to the floor or to a cast-in-place foundation. Bolts not included.

Maintenance

Powdercoated steel

Products that are powder-coated can be touch-up painted with alkyd paint.
