Fogdarp Bike Stand

Design Anna Kraitz

Designed with practicality in mind, this cycle stand is deliberately streamlined to facilitate use. Sustainable design and environmentally-friendly. The sleekness and simplicity of Fogdarp uses less material than most cycle stands, making it greener to produce. It provides a reliable means of securing cycles, ultimately making them less vulnerable to theft.

Dimensions and weight

Width: 35,2 cm
 Height: 90 cm
 Ø: 12 cm
 Vikt: 15,5 kg

Product numbers and combinations

Ö04-20S Fogdarp bicycle stand in sand-cast aluminum, black Noir 2200 Sablé
Ö04-20A Fogdarp bicycle stand in sand-cast aluminum, clear lacquered matt aluminum
B11-06 Startup cost for powder coating steel in a color other than standard

Append to product number

METAL SURFACE FINISH

S for black.
 ALU for clear-lacquered matt aluminium.
 C for any color of steel, at an additional cost.

INSTALLATION TYPE

N for surface mount.
 M for installation in pre-cast foundations.

Standard colours

■ Noir 2200 Sablé

Materials and surface treatments

The bicycle stand is made from sand-cast aluminium in Noir 2200 Sablé. Curved Rilsan-treated steel pipe. Pipe in yellow Rilsan as standard.

Steel

Nola uses high-quality steel with good strength in our products. Steel rusts if left untreated and must therefore be surface treated.

Recycled sand cast aluminium

Aluminium recycled from scrap, hand cast in sand moulds. The energy consumption when producing recycled aluminium is about 5% of that used when producing virgin aluminium.

Powder coating

Powder coating is a coating that is applied as a free-flowing, dry powder. Unlike conventional liquid paint, powder coating is usually applied electrostatically and then cured under heat or with ultraviolet light. The result is an even, hard-wearing coloured surface with the desired gloss level.

Assembly and placement

Surface mount

Can be bolted above ground, to the floor or to a cast-in-place foundation. Bolts not included.

Installation in pre-cast foundations

Posts for installation in pre-cast foundations.

Maintenance

Sand cast aluminium

Maintenance on aluminium is not normally needed, but make sure to wash and keep the material clean. Untreated aluminium develops a matte surface over time.

Powder coated Aluminium

Products that are powder-coated can be touch-up painted with alkyd paint if necessary.
