Kajen Rocking Chair

Design Thomas Bernstrand

The armchair's seat and backrest are crafted from flexible wooden slats, but the hanging mechanism has been replaced by a suspension system. The wooden slats cradle the body's contours as the individual sits down, creating a uniquely ergonomic experience. Whether paired with the Kajen furniture group or used on its own, the armchair looks great in any indoor or outdoor space.

Dimensions and weight

Width: 73 cm
Height: 100 cm
Depth: 78 cm

Product numbers and combinations

U16-99 Kajen rocking chair with armrests

B11-06 Startup cost for powder coating steel in a color other than standard. Choose a RAL colour.

B11-07 Starting cost for another color of wood. Choose brown or grey for Linax or an NCS color for painted wood. If you want the same color on both steel and wood, choose the RAL color for both.

Append to product number

WOOD AND FINISH

NCS S5502-B for painted light grey pine.

RAL 1023 for painted yellow pine.

C for any color other than standard, at additional cost.

METAL SURFACE FINISH

Noir 2200 Sablé for black.

RAL 1023

C for any color other than standard, at additional cost.

VARIANTS

Nordic Swan Ecolabel applies exclusively for hot-dip galvanized steel and Linax treated pine. Not available for wall-mounted Mini-Bench, Rocking Chair and Standing Bench.

INSTALLATION TYPE

N for surface mount.

Standard colours

- RAL 1023
- NCS S 5502-B
- Noir 2200 Sablé

Materials and surface treatments

Pine

Nola's pine is of high quality and comes from sustainable forestry. Pine is an environmentally friendly, domestically produced material. Damaged or untreated pine is quite easily attacked by decomposition processes; therefore, it is particularly important to repair damaged surfaces.

Water-based glaze

Varnishing of wood is done with a water-based varnish. A water-based paint that is kinder to the environment. Under normal use, the paint has a good wear resistance and long durability.

Steel

Nola uses high-quality steel with good strength in our products. Steel rusts if left untreated and must therefore be surface treated.

Hot-dip galvanized or electrogalvanized and powder coating

Available in either only hot-dip galvanized steel or electro-galvanized and powder-coated steel.

Hot-dip galvanizing provides very strong protection against corrosion. The steel is dipped into a bath of hot liquid zinc. The zinc attaches and creates a surface coating on the steel part, which is then taken out of the bath and drained of excess zinc.

Electrogalvanizing provides corrosion protection through the sacrifice of zinc ions. It is created via a zinc coating on the steel using an electric current. Powder coating is a coating that is applied as a free-flowing, dry powder. Unlike conventional liquid paint, powder coating is usually applied electrostatically and then cured under heat or with ultraviolet light. The result is an even, hard-wearing coloured surface with the desired gloss level.

Assembly and placement

Surface mount

Can be bolted above ground, to the floor or to a cast-in-place foundation. Bolts not included.

Levereras monterad

Maintenance

Finstruktur SK 1. Pulverlack går att beställa på sprayflaska.

Powdercoated steel

Products that are electro-galvanized and powder-coated can be touch-up painted with alkyd paint.

Hot dip galvanized steel

Hot-dip galvanized can be touch-up painted with so-called "cold galvanizing".

Water-based glazed pine

Products in varnished pine must be maintained regularly with alkyd paint. Maintenance intervals approximately 1 time per year. Damage and cracks should be repaired immediately. Touch-up paints in spray packaging are available in standard colors to order.

Character

The Kajen rocking chair has a metal frame that encases the seat and attaches it to the base with spring-like comfort, creating a uniquely ergonomic armchair.

Designers

Thomas Bernstrand

Designer Thomas Bernstrand, who owns his own design studio in Stockholm, has participated in a large number of design and art exhibitions around the world such as MoMA in New York, Colette in Paris, Biennale Design Saint-Etienne and others.

Bernstrand has received several awards for his work, including Excellent Swedish Form and Winner of the Good Design Award 2012 for Nolastolen Share. For Nola, Bernstrand has designed a large number of products and furniture series and participated in a number of special projects over the years.
