A3 A4 A5 Litterbin

Design TAF Studio

These paper recycling bins make sorting simple and neat. Sized to contain sheets of A4 paper and stack them, the bins make it easier to re-feed the paper directly into a printer tray later on, or bundle it neatly for recycling. The bins enable any office to maintain a reliable secondary source of A4 paper. With the money saved on replacing wasted sheets of A4, the bins quickly pay for themselves.

Materials and surface treatments	<p>Made in bent sheet steel powder-coated in standard colours black RAL 9017 or white RAL 9016.</p> <p>Steel</p> <p>Nola uses high-quality steel with good strength in our products. Steel rusts if left untreated and must therefore be surface treated.</p> <p>Powder coating</p> <p>Powder coating is a coating that is applied as a free-flowing, dry powder. Unlike conventional liquid paint, powder coating is usually applied electrostatically and then cured under heat or with ultraviolet light. The result is an even, hard-wearing coloured surface with the desired gloss level.</p>
Assembly and placement	<p>Freestanding</p> <p>Freestanding product that is placed directly on the ground.</p>
Maintenance	<p>Powdercoated steel</p> <p>Products that are powder-coated can be touch-up painted with alkylid paint.</p> <p><u>Read more in our general maintenance advice at nola.se/en/care-and-maintenance</u></p>
Versions	

Powder-coated in standard colours black RAL 9017 or white RAL 9016.
