

Basket Table

Design Ola Gillgren

Lightweight, small and sleek, the Basket table was made to complement both versions of the Basket chair. Like the other designs in the Basket series, the table is characterised by contouring metal ribs that shape its distinctive curves. The table's base and sides are crafted from stainless steel wire and topped with a sturdy sheet-metal surface. The stainless steel parts make the table resistant to rust, while the base is designed to bolt to the surface beneath it. They make the table ideal for outdoor use. Just as the table provides a perfect counterpart to the Basket chairs, its striking wire construction and contemporary shape make it a good match for any type of indoor and outdoor furniture.

CERTIFICATION

Dimensions and weight

Height: 38,7 cm
 Ø: 60 cm

Product numbers and combinations

U12-09S Basket table
 B11-06 Startkostnad för pulverlackering av annan färg än standard

Append to product number

WOOD AND FINISH

Applies to seat for armchair.

METAL SURFACE FINISH

C for any color other than standard, starting cost is added.

INSTALLATION TYPE

N for surface mount.

Standard colours

 RAL 160 70 10
 RAL 3007
 RAL 6024

Materials and surface treatments

Steel

Nola uses high-quality steel with good strength in our products. Steel rusts if left untreated and must therefore be surface treated.

Stainless steel

Stainless steel is an iron alloy with at least 10.5% chromium that often has good resistance to corrosion (rust) and other chemical attacks. A common misconception about stainless steel is that it does not rust at all; it can in fact corrode, especially in environments near the sea with high humidity.

Powder coating

Powder coating is a coating that is applied as a free-flowing, dry powder. Unlike conventional liquid paint, powder coating is usually applied electrostatically and then cured under heat or with ultraviolet light. The result is an even, hard-wearing coloured surface with the desired gloss level.

Assembly and placement

Freestanding

Freestanding product that is placed directly on the ground.

Surface mount

Can be bolted above ground, to the floor or to a cast-in-place foundation. Bolts not included.

Partly assembled.

Maintenance**Powdercoated steel**

Products that are powder-coated can be touch-up painted with alkyd paint.
