## Cortado Chair

### Design SuperLab

Cortado is a nimble chair with a low backrest and armrests, ideal for spontaneous gatherings and public spaces like cafes, shopping centres, and rooftop terraces. It boasts a comfortable seat for indoor and outdoor use together with a robust steel frame. It also pairs seamlessly with the Workdesk.

Designed by the innovative Superlab, Cortado addresses the challenge faced by cafes: how to provide inviting seating without encouraging guests to linger too long. The solution lies in its low steel frame, serving as both backrest and armrests. Cortado is a comfy chair with a minimalist design, effortlessly fitting into a variety of settings.

Cortado is stackable, versatile, and invites you to enjoy a quick espresso, but with a touch of luxury - a cortado.

Padded seat in dry foam. Including upholstery and fabric.  
 Choose fabric from Sunbrella's website or contact us at Nola for help more fabrics.

#### Standard colours

 RAL 3022

#### Materials and surface treatments

It has a soft padded seat made in dry foam for outdoor use and a strong steel frame. The cushion is covered with a through-dyed acrylic outdoor fabric from Sunbrella. Steel has coating satin gloss 30.

#### Steel

Nola uses high-quality steel with good strength in our products. Steel rusts if left untreated and must therefore be surface treated.

#### Electrogalvanized

Electrogalvanizing (also known as zinc plating) provides corrosion protection through the sacrifice of zinc ions. It is created via a zinc coating on the steel using an electric current.

### **Powder coating**

Powder coating is a coating that is applied as a free-flowing, dry powder. Unlike conventional liquid paint, powder coating is usually applied electrostatically and then cured under heat or with ultraviolet light. The result is an even, hard-wearing coloured surface with the desired gloss level.

### **Assembly and placement**

#### **Freestanding**

Freestanding product that is placed directly on the ground.

### **Maintenance**

#### **Powdercoated steel**

Products that are powder-coated can be touch-up painted with alkylid paint.
