

## Deli Table

### Design

Deli is a compact tabletop with a streamlined aesthetic and an emphasis on functionality. The combination of these attributes enables Deli to speak with a clear visual voice while remaining discreetly in the sidelines. The tabletop slots easily into a variety of contexts where space needs to be optimised. Deli can be attached to walls, mounted on benches and seats and installed on many vertical surfaces.

## Materials and surface treatments

### Steel

Nola uses high-quality steel with good strength in our products. Steel rusts if left untreated and must therefore be surface treated.

### Powder coating

Powder coating is a coating that is applied as a free-flowing, dry powder. Unlike conventional liquid paint, powder coating is usually applied electrostatically and then cured under heat or with ultraviolet light. The result is an even, hard-wearing coloured surface with the desired gloss level.

## Assembly and placement

Deli is fully assembled.

Attaches to walls, benches and seats, and can be installed on many vertical surfaces.

## Maintenance

### Powdercoated steel

Products that are powder-coated can be touch-up painted with alkyd paint.
