DSB 10 Ashtray

Design Inventarrum

As a complement to our own range, we also market products from Danish [Inventarrum](#). Like Nola, Inventarrum works for high design and good thought in the public space. All Inventarrum's ashtrays and trash cans are basically stainless, then powder coated. For more information about DSB 10, see product sheet for download during assembly.

Dimensions and weight

Width: 21 cm
Height: 73,5 cm
Depth: 23 cm

Standard colours

Materials and surface treatments

Stainless steel

Stainless steel is an iron alloy with at least 10.5% chromium that often has good resistance to corrosion (rust) and other chemical attacks. A common misconception about stainless steel is that it does not rust at all; it can in fact corrode, especially in environments near the sea with high humidity.
