# Erba Planting Table

## Design Mia Cullin

Home gardening is a growing sector with relevance to schools and retirement homes as well as communal gardens and residential yards. Meeting the demand for attractive, functional gardening equipment, Erba provides a workbench for nurturing plant life, storage for utensils and a trellis for hanging tools. Erba is available in two heights - sitting and standing - with a footrest that encourage an ergonomic posture while working. Erba helps make sowing seeds, growing shoots and harvesting plants a source of inspiration for individuals and communities alike.

Standard colours

Materials and surface treatments

#### Steel

Nola uses high-quality steel with good strength in our products. Steel rusts if left untreated and must therefore be surface treated.

#### Electrogalvanized

Electrogalvanizing (also known as zinc plating) provides corrosion protection through the sacrifice of zinc ions. It is created via a zinc coating on the steel using an electric current.

#### Powder coating

Powder coating is a coating that is applied as a free-flowing, dry powder. Unlike conventional liquid paint, powder coating is usually applied electrostatically and then cured under heat or with ultraviolet light. The result is an even, hard-wearing coloured surface with the desired gloss level.

Assembly and placement

#### Freestanding

Freestanding product that is placed directly on the ground.

Fully assembled

Maintenance

#### Powdercoated steel

Products that are powder-coated can be touch-up painted with alkyd paint.
