Goal Furniture Group

Design Thomas Bernstrand

With its reinforced fibre concrete surfaces and sturdy steel runners, the Goal furniture group plays to win. The robust materials make Goal's products an ideal choice for outdoor environments, such as campuses, community spaces or areas designed to encourage social interactions. Goal's blend of polished concrete and matt steel give the designs an architectonic effect that reflects many contemporary environments.

CERTIFICATION

Dimensions and weight

Goal table

Goal Coffee table: round Ø: 70 cm. Height: 70 cm. Weight: 23.5 kg.

Goal Coffee table: non-sided top: 68x78 cm. Height: 70 cm. Weight: 23 kg.

Goal Rectangular table: length: 150 cm. Width: 76 cm. Height: 72 cm. Weight: 50 kg.

Individual dimensions

The café table's central supporting post: Ø 42 mm. The rectangular table's tubular steel frame: 38 mm x 2 mm.

Goal bench

Length: 175 cm

Width: 45 cm

Height: 46 cm

Weight 32 kg

Individual dimensions

Stand steel pipe: dimensions: 38 x 2 mm, hot-dip galvanized.

Seat: Polyurethane coated steel pipes 30 x 2 mm, with the PUR molding Ø 44 mm.

Alternatively: seat in top-glazed pine.

Goal park bench

Length: 175 cm

Width: 61 cm

Height: 87 cm

Sitting height: 46 cm

Weight: 45 kg. (pine: 32 kg)

Individual dimensions

Stand steel pipe: dimensions: 38 x 2 mm, hot-dip galvanized.

Seat and back: Polyurethane-coated steel pipes 30 x 2 mm, with the PUR molding Ø 44 mm. Alternatively, pine slats 40 x 50 mm.

Top-glazed pine: GORI 890 Flint.

INSTALLATION TYPE

M for in-ground.

N for surface mount.

Standard colours

Materials and surface treatments

Polyurethane.

Pine

Nola's pine is of high quality and comes from sustainable forestry. Pine is an environmentally friendly, domestically produced material. Damaged or untreated pine is quite easily attacked by decomposition processes; therefore, it is particularly important to repair damaged surfaces.

Water-based glaze

Varnishing of wood is done with a water-based varnish. A water-based paint that is kinder to the environment. Under normal use, the paint has a good wear resistance and long durability.

Steel

Nola uses high-quality steel with good strength in our products. Steel rusts if left untreated and must therefore be surface treated.

Hot-dip galvanized

Hot-dip galvanizing provides very strong protection against corrosion. The steel is dipped into a bath of hot liquid zinc. The zinc attaches and creates a surface coating on the steel part, which is then taken out of the bath and drained of excess zinc.

Assembly and placement

Freestanding

Freestanding product that is placed directly on the ground.

In-ground

Cast in ground.

Surface mount

Can be bolted above ground, to the floor or to a cast-in-place foundation. Bolts not included.

The slats and frame are delivered in separate parts. The tables are delivered in separate parts.

Maintenance

Scratched steel can be treated with primer for galvanized metal. Although maintenance of the slats is not normally needed, cleaning with mild detergent is recommended.

Water-based glazed pine

Products in varnished pine must be maintained regularly with alkyd paint. Maintenance intervals approximately 1 time per year. Damage and cracks should be repaired immediately. Touch-up paints in spray packaging are available in standard colors to order.

Hot dip galvanized steel

Hot-dip galvanized can be touch-up painted with so-called "cold galvanizing".

Versions

The benches are available with a back or without, with armrests or without. The group includes tables in round, rectangular and pentagon shapes. A range of colour choices is available.

Character

A furniture group crafted from reinforced fibre concrete surfaces and stainless steel runners, providing an attractive complement to outdoor settings and hi-tech interiors.

Designers

Thomas Bernstrand

Designer Thomas Bernstrand, who owns his own design studio in Stockholm, has participated in a large number of design and art exhibitions around the world such as MoMA in New York, Colette in Paris, Biennale Design Saint-Etienne and others.

Bernstrand has received several awards for his work, including Excellent Swedish Form and Winner of the Good Design Award 2012 for NolaShare. For Nola, Bernstrand has designed a large number of products and furniture series and participated in a number of special projects over the years.
