nola

Hook Bike Stand

Design Note Design Studio

The broad strip of metal forming Hook's structure gives it a robust appearance, but its narrow width makes it appear smaller when viewed from the side. Available in eye-catching orange, pastel blue or light grey, the colour choice can make the cycle stand more visible or enable it to melt seamlessly into the background.

Dimensions and weight

Width: 14 cm Height: 75 cm Weight 12 kg

Foot plate: 200 mm x 100 mm.

Opening for lock/chain: 77 mm.

Product numbers and combinations

INSTALLATION TYPE

N for surface mount.

Standard colours

Materials and surface treatments

Steel

Nola uses high-quality steel with good strength in our products. Steel rusts if left untreated and must therefore be surface treated.

Hot-dip galvanized

Hot-dip galvanizing provides very strong protection against corrosion. The steel is dipped into a bath of hot liquid zinc. The zinc attaches and creates a surface coating on the steel part, which is then taken out of the bath and drained of excess zinc.

Assembly and placement

Surface mount

Can be bolted above ground, to the floor or to a cast-in-place foundation. Bolts not included.

Maintenance

Hor dip galvanized steel

 $\label{thm:condition} \mbox{Hot-dip galvanized can be touch-up painted with so-called "cold galvanizing".}$

Read more in our general maintenance advice at nola.se/en/care-and-maintenance

Versions

The bicycle stand is available in three standard colours: RAL 2010, RAL 6033 and RAL 7022.

Designers

Note Design Studio

Note is a design studio based in Stockholm. The studio was founded in 2008 and has since worked in a variety of fields including architecture, interior, product & graphic design as well as design strategy.
