Product numbers and combinations

U12-34/BAR Korg Bar Table

Append to product number

METAL SURFACE FINISH

When ordering, specify which of our standard colors you want:

Dark blue/Grey RAL 5008, fine texture.

Black Noir 2200 Sablé, fine texture.

Red/Orange RAL 2002 (matt clear coat), fine structure.

C for any color other than standard, at additional cost.

INSTALLATION TYPE

N for surface mount.

Standard colours

Materials and surface treatments

Steel

Nola uses high-quality steel with good strength in our products. Steel rusts if left untreated and must therefore be surface treated.

Electrogalvanized

Electrogalvanizing (also known as zinc plating) provides corrosion protection through the sacrifice of zinc ions. It is created via a zinc coating on the steel using an electric current.

Powder coating

Powder coating is a coating that is applied as a free-flowing, dry powder. Unlike conventional liquid paint, powder coating is usually applied electrostatically and then cured under heat or with ultraviolet light. The result is an even, hard-wearing coloured surface with the desired gloss level.

Assembly and placement

Surface mount

Can be bolted above ground, to the floor or to a cast-in-place foundation. Bolts not included.

Maintenance**Powdercoated steel**

Products that are powder-coated can be touch-up painted with alkyd paint.
