Korg Armchair

Design Thomas Bernstrand

Korg armchair is a neat and expressive chair anchored to a cylinder-shaped base. Its grid pattern creates a clear graphic expression. The armchair is available with a swivel function or firmly anchored. Korg is maintenance-free and the function of the material at the same time makes water easily drain.

CERTIFICATION

FEATURES

↻ Swivel function

Dimensions and weight

Width: 64 cm
 Height: 88 cm
 Sitting height: 45 cm
 Depth: 61 cm

Product numbers and combinations

U12-30 Korg swivel armchair, electroplated steel, standard colour
 U12-31 Korg armchair, non-swivel version, electroplated steel, standard colour
 B11-06 Startup cost for powder coating steel in a color other than standard.
 Choose a RAL colour.

Append to product number

METAL SURFACE FINISH

When ordering, specify which of our standard colors you want:

Dark blue/Grey RAL 5008, fine texture.

Black Noir 2200 Sablé, fine texture.

Red/Orange RAL 2002 (matt clear coat), fine structure.

C for any color other than standard, at additional cost.

VARIANTS

If a different seat height than standard is desired, contact us at Nola.

For Korg indoors, we can manufacture cushions in leather with wool filling.

Requests for quotation.

INSTALLATION TYPE

N for surface mount.

M for in-ground.

Standard colours

- RAL 2002
- RAL 5008
- Noir 2200 Sablé

Materials and surface treatments

Steel

Nola uses high-quality steel with good strength in our products. Steel rusts if left untreated and must therefore be surface treated.

Electrogalvanized

Electrogalvanizing (also known as zinc plating) provides corrosion protection through the sacrifice of zinc ions. It is created via a zinc coating on the steel using an electric current.

Powder coating

Powder coating is a coating that is applied as a free-flowing, dry powder. Unlike conventional liquid paint, powder coating is usually applied electrostatically and then cured under heat or with ultraviolet light. The result is an even, hard-wearing coloured surface with the desired gloss level.

Assembly and placement

In-ground

Cast in ground.

Surface mount

Can be bolted above ground, to the floor or to a cast-in-place foundation. Bolts not included.

Mounted to the ground.

Maintenance

Powdercoated steel

Products that are powder-coated can be touch-up painted with alkyd paint.
