Krokben Planter Base

Design Jonas Bohlin

The Krokben planter base is made of metal, making it as durable as it is elegant. Krokben's classic shape is compatible with both contemporary garden containers and traditional planters.

Dimensions and weight

Outer diameter: 43 cm Height: 25 cm. Weight: 9 kg.

Barrel: diameter: 50 cm. Height: 47 cm. Weight: 12.5 kg.

Total height: 69 cm.

Individual dimensions

The planter base's base ring is made in 8 mm plate steel.

The legs are made in solid 20 mm x 20 mm steel.

Product numbers and combinations

Ö13-20 Växtkärl i ek och varmförzinkade stålband.

Ö13-21 Varmförzinkat stativ.

Ö13-20BT10 Mona bevattningstank till planteringskärl Krokben, volym 10lit.

Append to product number

METAL SURFACE FINISH

V for hot-dip galvanized finish.

G for dark green RAL 6015.

C for any color other than standard, starting cost is added.

INSTALLATION TYPE

N for surface mount.

Standard colours

RAL 6015

Hot-dip galvanized steel

Materials and surface treatments

Planter in untreated oak with hot-dip galvanized steel bands.

Oak

Oak is a heavy, hard and medium tough wood. Moderately dimensionally stable in case of moisture changes. Oak wood blackens if it is exposed to moisture or wetness for a long time. However, it does not affect the other properties of the wood. Thanks to its hardness and toughness, the oak wood is suitable for furniture and other use in exposed environments.

Steel

Nola uses high-quality steel with good strength in our products. Steel rusts if left untreated and must therefore be surface treated.

Hot-dip galvanized

Hot-dip galvanizing provides very strong protection against corrosion. The steel is dipped into a bath of hot liquid zinc. The zinc attaches and creates a surface coating on the steel part, which is then taken out of the bath and drained of excess zinc.

Powder coating

Powder coating is a coating that is applied as a free-flowing, dry powder. Unlike conventional liquid paint, powder coating is usually applied electrostatically and then cured under heat or with ultraviolet light. The result is an even, hard-wearing coloured surface with the desired gloss level.

Assembly and placement

Surface mount

Can be bolted above ground, to the floor or to a cast-in-place foundation. Bolts not included.

Freestanding.

Maintenance

Powdercoated steel

Products that are powder-coated can be touch-up painted with alkyd paint.

Hot dip galvanized steel

Hot-dip galvanized can be touch-up painted with so-called "cold galvanizing".

Character

A planter base made of metal, elegant and durable.

Designers

Jonas Bohlin

Jonas Bohlin, född 1953, är inredningsarkitekt och formgivare och verkar i allt från möbler, armaturer, glas och textil, till konstföremål och installationer. Bohlin blev uppmärksammad för sin stol Concrete, under tidigt åttio-tal, som startade en diskussion om gränsdragningen mellan konst, konsthantverk och bruksvara. I decennier har han fört den svenska designtraditionen framåt och med sitt tydliga formspråk blivit en av landets främsta möbelformgivare. Bohlin var professor på Konstfack i Stockholm 2004-09. För Nola har Bohlin ritat ett flertal uppmärksammade möbler.
