Krus Planter and Water Feature

Design Bernt Fröderberg

Krus is a sleek aluminium planter with subtle ridges tracing its surface. Although its smooth form resembles the ceramic vessels shaped on a pottery wheel, it is actually made from recycled aluminium. Krus can be placed atop a corresponding pillar to double its height, or placed directly on the ground. It can be fitted with an inner container and water pump to turn it into a fountain or water feature.

Dimensions and weight

Planter Diameter of planter: 101 cm. Height: 33 cm. Weight: 64 kg. Volume: 90 L.

Pillar Diameter of plinth: Ø 31 cm. Height: 78 cm. Weight: 21 kg.

Planter + Pillar Overall height with planter: 111 cm. Diameter of base: Ø 27 cm. Height of base: 50 cm.

Product numbers and combinations

Ö16-00 Krus planteringsskål, obehandlad lättblästrad aluminium

Ö16-01 Pedestal till planteringsskål Krus, obehandlad lättblästrad aluminium

Ö16-02 Krus, markfundament.

Ö16-00BT6 Planteringsinsats, 6 liter.

Ö16-00BT4 Bevattningstank.

Append to product number

METAL SURFACE FINISH

S for black, RAL 9005.

MG for metallic grey.

C for any color other than standard, starting cost is added.

INSTALLATION TYPE

M for installation in pre-cast foundations.

N for surface mount.

Standard colours

■ RAL 9005

Materials and surface treatments

Recycled sand cast aluminium

Aluminium recycled from scrap, hand cast in sand moulds. The energy consumption when producing recycled aluminium is about 5% of that used when producing virgin aluminium.

Powder coating

Powder coating is a coating that is applied as a free-flowing, dry powder. Unlike conventional liquid paint, powder coating is usually applied electrostatically and then cured under heat or with ultraviolet light. The result is an even, hard-wearing coloured surface with the desired gloss level.

Assembly and placement

Surface mount

Can be bolted above ground, to the floor or to a cast-in-place foundation. Bolts not included.

Installation in pre-cast foundations

Posts for installation in pre-cast foundations.

Some assembly required.

Maintenance**Sand cast aluminium**

Maintenance on aluminium is not normally needed, but make sure to wash and keep the material clean. Untreated aluminium develops a matte surface over time.

Powder coated Aluminium

Products that are powder-coated can be touch-up painted with alkyd paint if necessary.

Versions

Available in standard colours black or grey or with untreated aluminium surfaces. Non-standard colours are available upon request.

Character

Krus is a uniquely versatile planter. It can be placed on a pillar to double its height or transformed into a fountain or decorative water feature.
