Ljusnan Accessory table

Design White Arkitekter

Ljusnan is an attachable small table with illuminated bottom that can be mounted to other products, such as walls, standalone benches, or other fixed installations where a tray or surface is needed for placement of everyday objects or support.

The table features a steel tabletop with an integrated LED fixture that emits light downwards and to the sides, creating a pleasantly inviting and secure atmosphere. The tabletop size is just right for two arms to meet, a sketchbook, laptop, or two cups with a thermos.

FEATURES

💡 Lighting included

Dimensions and weight

Height: 56 cm

Ø: 36 cm

Weight 8 kg

Material dimensions

Steel tube Ø: 30 mm

METAL SURFACE FINISH

RAL 7022

C for any color other than standard, starting cost is added.

INSTALLATION TYPE

Mounted to wall.

Standard colours

RAL 7022

Materials and surface treatments

Steel

Nola uses high-quality steel with good strength in our products. Steel rusts if left untreated and must therefore be surface treated.

Electrogalvanized

Electrogalvanizing (also known as zinc plating) provides corrosion protection through the sacrifice of zinc ions. It is created via a zinc coating on the steel using an electric current.

Powder coating

Powder coating is a coating that is applied as a free-flowing, dry powder. Unlike conventional liquid paint, powder coating is usually applied electrostatically and then cured under heat or with ultraviolet light. The result is an even, hard-wearing coloured surface with the desired gloss level.

Assembly and placement

Ljusnan Accesory table is delivered in one piece.

Mounted on and around other products, for example on a wall, against a wall, free-standing benches or other fixed installations. Bolt for mount to wall is not included.

Maintenance

Powdercoated steel

Products that are powder-coated can be touch-up painted with alkyd paint.
