Lotus Planter

Design Anna Kraitz

Lotus is a solid, generous planter made in sandcast aluminium. The planter's sculptural design captures the beauty of the petals' rounded shapes as it creates a container for flowers, plants and ornamental trees. Clustering several planters together creates an attractive feature, and placing them in a row can provide a stylish means of dividing space. The planter's unique style suits variety of outdoor settings.

Dimensions and weight

Height: 57 cm

Ø: Ytermått 120 cm, innermått 71cm

Vikt: 93 kg

Volume: 110 litres.

Product numbers and combinations

Ö14-49 Lotus planter

Ö14-49BT10 Mona water tank for Lotus planter, volume 10 liter

B11-06 Startup cost for powder coating steel in a color other than standard. Choose a RAL colour.

Append to product number

METAL SURFACE FINISH

C for any color, at a standard cost.

INSTALLATION TYPE

N for surface mount.

Standard colours

■ Gris 2150 Sablé

Materials and surface treatments

Recycled sand cast aluminium

Aluminium recycled from scrap, hand cast in sand moulds. The energy consumption when producing recycled aluminium is about 5% of that used when producing virgin aluminium.

Powder coating

Powder coating is a coating that is applied as a free-flowing, dry powder. Unlike conventional liquid paint, powder coating is usually applied electrostatically and then cured under heat or with ultraviolet light. The result is an even, hard-wearing coloured surface with the desired gloss level.

Assembly and placement

Freestanding

Freestanding product that is placed directly on the ground.

Surface mount

Can be bolted above ground, to the floor or to a cast-in-place foundation. Bolts not included.

The holes for the attachment to the ground is on the inside.

Maintenance**Powder coated Aluminium**

Products that are powder-coated can be touch-up painted with alkyd paint if necessary.
