# Lotus Planter

# Design Anna Kraitz

Lotus is a solid, generous planter made in sandcast aluminium. The planter's sculptural design captures the beauty of the petals' rounded shapes as it creates a container for flowers, plants and ornamental trees. Clustering several planters together creates an attractive feature, and placing them in a row can provide a stylish means of dividing space. The planter's unique style suits variety of outdoor settings.

Dimensions and weight

Height: 57 cm

Ø: Yttermått 120 cm, innermått 71cm

Weight 93 kg

Volume: 110 litres.

**VARIANTS** 

Planter and insert sold separately

INSTALLATION TYPE

N for surface mount.

Standard colours

Gris 2150 Sablé

Materials and surface treatments

Planter in cast aluminum. Planter insert in fiberglass reinforced plastic.

### Recycled sand cast aluminium

Aluminium recycled from scrap, hand cast in sand moulds. The energy consumption when producing recycled aluminium is about 5% of that used when producing virgin aluminium.

## Powder coating

Powder coating is a coating that is applied as a free-flowing, dry powder. Unlike conventional liquid paint, powder coating is usually applied electrostatically and then cured under heat or with ultraviolet light. The result is an even, hard-wearing coloured surface with the desired gloss level.

#### Assembly and placement

#### Freestanding

Freestanding product that is placed directly on the ground.

#### Surface mount

Can be bolted above ground, to the floor or to a cast-in-place foundation. Bolts not included.

The holes for the attachment to the ground is on the inside.

Maintenance Powder coated Aluminium

Products that are powder-coated can be touch-up painted with alkyd paint if necessary.
