## Max Steel Trellis

Design Bernt Fröderberg

Trellises add a decorative touch, whether mounted directly to a structure or erected in the landscape. This wall-mounted trellis is designed to enhance buildings as it promotes the growth of trailing vines. It may also be attached to garden walls to add a decorative feature. Crafted in steel, Max encourages the growth of trailing plants up to the top, and even beyond.

<b>Dimensions and weight</b>	<p>Length: 280 cm  Width: 55 cm  Depth: 37 cm  Weight 20 kg</p> <p>Recommended height above ground: 30 cm</p>
<b>Product numbers and combinations</b>	<p><b>Append to product number</b></p> <p>INSTALLATION TYPE</p> <p>V for mounted to wall.</p>
<b>Standard colours</b>	
<b>Materials and surface treatments</b>	<p><b>Steel</b>  Nola uses high-quality steel with good strength in our products. Steel rusts if left untreated and must therefore be surface treated.</p> <p><b>Hot-dip galvanized</b>  Hot-dip galvanizing provides very strong protection against corrosion. The steel is dipped into a bath of hot liquid zinc. The zinc attaches and creates a surface coating on the steel part, which is then taken out of the bath and drained of excess zinc.</p> <p><b>Powder coating</b>  Powder coating is a coating that is applied as a free-flowing, dry powder. Unlike conventional liquid paint, powder coating is usually applied electrostatically and then cured under heat or with ultraviolet light. The result is an even, hard-wearing coloured surface with the desired gloss level.</p>
<b>Assembly and placement</b>	<p><b>Mounted to wall</b>  Bolted in place to stand/wall bracket.</p> <p>Bolts for walls not included.</p> <p>Fully assembled.</p>
<b>Maintenance</b>	<p>Not normally required.</p> <p><b>Hot dip galvanized steel</b>  Hot-dip galvanized can be touch-up painted with so-called "cold galvanizing".</p> <p><b><u><a href="#">Read more in our general maintenance advice at nola.se/en/care-and-maintenance</a></u></b></p>
<b>Versions</b>	<p>Available in a choice of three finishes: cold galvanised, hot-dip galvanised and powder-coated in black.</p>
<b>Character</b>	

A wall-mounted trellis designed to promote the growth of foliage and trailing vines and provide a decorative garden element.
