

## Moa Bench

Design Gunilla Hedlund

Moa is an expressive design crafted from a double layer of laser-cut sheet steel. The layers are perforated to form an eye-catching surface motif. Moa is attractive from many vantage points. It creates a strong silhouette and casts a rich pattern of shadows as light is cast over it.

<b>Dimensions and weight</b>	<p>Length: 130 cm Width: 42 cm Sitting height: 46 / 52 cm Weight 21 kg</p> <p><b>Individual dimensions</b> The laser-cut sheet steel: 35 mm x 8 mm The metal net: 1,4 / 2,6 mm</p>
<b>Product numbers and combinations</b>	<p><b>U22-30</b> Moa bench</p> <p><b>B11-06</b> Startup cost for powder coating steel in a color other than standard. Choose a RAL colour.</p> <p><b>Append to product number</b></p> <p><b>METAL SURFACE FINISH</b> C for any color other than standard, starting cost is added.</p> <p><b>INSTALLATION TYPE</b> N for surface mount.</p>
<b>Standard colours</b>	<p> Gris 2150 Sablé</p>
<b>Materials and surface treatments</b>	<p><b>Steel</b> Nola uses high-quality steel with good strength in our products. Steel rusts if left untreated and must therefore be surface treated.</p> <p><b>Powder coating</b> Powder coating is a coating that is applied as a free-flowing, dry powder. Unlike conventional liquid paint, powder coating is usually applied electrostatically and then cured under heat or with ultraviolet light. The result is an even, hard-wearing coloured surface with the desired gloss level.</p> <p><b>Hot-dip galvanized</b> Hot-dip galvanizing provides very strong protection against corrosion. The steel is dipped into a bath of hot liquid zinc. The zinc attaches and creates a surface coating on the steel part, which is then taken out of the bath and drained of excess zinc.</p>
<b>Assembly and placement</b>	<p><b>Freestanding</b> Freestanding product that is placed directly on the ground.</p> <p><b>Surface mount</b> Can be bolted above ground, to the floor or to a cast-in-place foundation. Bolts not included.</p> <p>Fully assembled.</p>
<b>Maintenance</b>	

#### Powdercoated steel

Products that are powder-coated can be touch-up painted with alkyd paint.
