

nola®

Moa Bench

Design Gunilla Hedlund

Moa is an expressive design crafted from a double layer of laser-cut sheet steel. The layers are perforated to form an eye-catching surface motif. Moa is attractive from many vantage points. It creates a strong silhouette and casts a rich pattern of shadows as light is cast over it.

Dimensions and weight

Length: 130 cm
Width: 42 cm
Sitting height: 46 / 52 cm
Vikt: 21 kg

Individual dimensions

The laser-cut sheet steel: 35 mm x 8 mm
The metal net: 1,4 / 2,6 mm

Product numbers and combinations

U22-30 Moa bench
B11-06 Startup cost for powder coating steel in a color other than standard.
Choose a RAL colour.

Append to product number

METAL SURFACE FINISH

C for any color other than standard, starting cost is added.

INSTALLATION TYPE

N for surface mount.

Standard colours

Gris 2150 Sablé

Materials and surface treatments

Steel

Nola uses high-quality steel with good strength in our products. Steel rusts if left untreated and must therefore be surface treated.

Powder coating

Powder coating is a coating that is applied as a free-flowing, dry powder. Unlike conventional liquid paint, powder coating is usually applied electrostatically and then cured under heat or with ultraviolet light. The result is an even, hard-wearing coloured surface with the desired gloss level.

Hot-dip galvanized

Hot-dip galvanizing provides very strong protection against corrosion. The steel is dipped into a bath of hot liquid zinc. The zinc attaches and creates a surface coating on the steel part, which is then taken out of the bath and drained of excess zinc.

Assembly and placement

Freestanding

Freestanding product that is placed directly on the ground.

Surface mount

Can be bolted above ground, to the floor or to a cast-in-place foundation. Bolts not included.

Fully assembled.

Maintenance

Powdercoated steel

Products that are powder-coated can be touch-up painted with alkyd paint.
