

Motala Tree Guard

Design Olle Anderson

Motala is a classic tree guard that encases the tree in a protective metal cage. Taller than many other tree guards, Motala offers excellent protection for bigger trees too. The tree guard is widest at the bottom, where it is reinforced with more steel ribs. The design provides an attractive complement to historic centres and too contemporary streetscapes too.

Dimensions and weight	Height: 180 cm		
	Total height: 220 cm. Depth below ground: 40 cm. Top diameter: 40 cm. Base diameter: 60 cm. Inner diameter: 37 cm.		
	The trunk of a straight-grown tree should not have a diameter greater than 30 cm.		
	Individual dimensions		
	The steel s	strips: 30 mm x 6 mm and 30 mm x 8 mm respectively.	
Product numbers and combinations	Ö20-11P	Motala Tree guard, TecTalis [®] two-component rust protection and polyester powder coating	
	Ö20-	Motala Tree guard for ground grilles, TecTalis® two-component rust	
	11P/2 Ö20-11VI	protection and polyester powder coating	
	020-114	Motala Tree guard, hot-dip galvanized + polyester powder coated	
	Ö20- 11VL/2	Motala Tree guard for ground grates, hot-dip galvanized + polyester powder coated	
	Append to	product number	
	METAL SU	RFACE FINISH	
	NOTE: On	ly available in black RAL 9005.	
Standard colours	RAL 90	005	
Materials and surface treatments		high-quality steel with good strength in our products. Steel rusts if left and must therefore be surface treated.	
	Hot-dip galvanized		
	dipped int	alvanizing provides very strong protection against corrosion. The steel is to a bath of hot liquid zinc. The zinc attaches and creates a surface In the steel part, which is then taken out of the bath and drained of c.	
	conventio then cured	bating bating is a coating that is applied as a free-flowing, dry powder. Unlike nal liquid paint, powder coating is usually applied electrostatically and d under heat or with ultraviolet light. The result is an even, hard-wearing surface with the desired gloss level.	
Assembly and placement	Some assembly required.		
		I may be attached to a tree grille at the base or ground-mounted using as supplied.	

Maintenance

	The version made with the lacquered finish should be handled with care. Scratches to the powder-coated steel finish can be repainted with alkyd oil enamel as needed. The hot-dip galvanised steel version can be repainted with cold galvanise solution if required.
	Powdercoated steel Products that are powder-coated can be touch-up painted with alkyd paint.
	Hor dip galvanized steel Hot-dip galvanized can be touch-up painted with so-called "cold galvanizing".
	Read more in our general maintenance advice at nola.se/en/care-and- maintenance
Versions	Available with a choice of three attachment specifications.
Character	The Motala tree guard encases the tree in a protective metal cage.

Designers

Olle Anderson

Olle Anderson started his career as civil engineer and started his career at White Architecture where he is partner today. Anderson has throughout the years worked with interior architecture and furniture design and in 1975 he founded the interior design departement at White. Throughout his career Anderson has received praise and acknowledgement for his work as a professor, honorary doctor and designer across the world, and won the award "Excellent Swedish design" a total of 19 times.
