Nordfjell Collection Gazebo Pergola

Design Nordfjell Collection

This elegant contemporary gazebo combines the traditional shapes of the past with the materials of the present. As the gazebo's circular shape creates an open-air enclosure, it provides excellent structures for climbers and creeper vines. Placed in a mature garden, the gazebo's shape will add an air of timeless elegance. In a contemporary setting, the gazebo's laser-cut, powdercoated steel shape will complement the contemporary architecture surrounding it.

Dimensions and weight	<p>Height: Liten 390 cm Stor 462 cm Ø: 220 cm (Liten) Stor Ø502 cm</p>
Product numbers and combinations	<p>V05-01 Gazebo, small Height 390 cm, Ø 220 cm V05-02 Gazebo, big Height 462 cm, Ø 502 cm</p> <p>Append to product number</p> <p>METAL SURFACE FINISH</p> <p>RAL 9005 C for any color other than standard, starting cost is added.</p> <p>INSTALLATION TYPE</p> <p>M for installation in pre-cast foundations.</p>
Standard colours	<p> RAL 9005</p>
Materials and surface treatments	<p>Steel Nola uses high-quality steel with good strength in our products. Steel rusts if left untreated and must therefore be surface treated.</p> <p>Electrogalvanized Electrogalvanizing (also known as zinc plating) provides corrosion protection through the sacrifice of zinc ions. It is created via a zinc coating on the steel using an electric current.</p> <p>Powder coating Powder coating is a coating that is applied as a free-flowing, dry powder. Unlike conventional liquid paint, powder coating is usually applied electrostatically and then cured under heat or with ultraviolet light. The result is an even, hard-wearing coloured surface with the desired gloss level.</p>
Assembly and placement	<p>Installation in pre-cast foundations Posts for installation in pre-cast foundations.</p> <p>Levereras i ett stycke med leveransstag som demonteras efter ingjutning.</p> <p>Förankras i mark se monteringsanvisningen.
