C for any color other than standard, starting cost is added.</p>
Standard colours	<p> Gris 2150 Sablé  Noir 2200 Sablé  Hot-dip galvanized steel</p>
Materials and surface treatments	<p>Steel Nola uses high-quality steel with good strength in our products. Steel rusts if left untreated and must therefore be surface treated.</p> <p>Powder coating Powder coating is a coating that is applied as a free-flowing, dry powder. Unlike conventional liquid paint, powder coating is usually applied electrostatically and then cured under heat or with ultraviolet light. The result is an even, hard-wearing coloured surface with the desired gloss level.</p> <p>Hot-dip galvanized Hot-dip galvanizing provides very strong protection against corrosion. The steel is dipped into a bath of hot liquid zinc. The zinc attaches and creates a surface coating on the steel part, which is then taken out of the bath and drained of excess zinc.</p>
Assembly and placement	<p>Levereras monterad. Justerbara fästen mot vägg och mark ingår. Bult mot mark/vägg ingår ej.</p>
Maintenance	<p>Powdercoated steel Products that are powder-coated can be touch-up painted with alkyd paint.</p> <p>Hot dip galvanized steel Hot-dip galvanized can be touch-up painted with so-called "cold galvanizing".</p> <p><u>Read more in our general maintenance advice at nola.se/en/care-and-maintenance</u></p>
