Paus Bicycle Stand / Rest Support

Design Nina Jobs

Paus is a range which brings a sense of speed and efficiency to the user. A simple, but flexible place to pause for a while in public spaces. The design is made of sand-cast aluminium and is sculpted to make the most comfortable sitting experience, despite its small surface area. Paus is available in three heights suitable for different purposes: high, low and somewhere in between.

Materials and surface treatments

Recycled sand cast aluminium

Aluminium recycled from scrap, hand cast in sand moulds. The energy consumption when producing recycled aluminium is about 5% of that used when producing virgin aluminium.

Powder coating

Powder coating is a coating that is applied as a free-flowing, dry powder. Unlike conventional liquid paint, powder coating is usually applied electrostatically and then cured under heat or with ultraviolet light. The result is an even, hard-wearing coloured surface with the desired gloss level.

Maintenance

Powder coated Aluminium

Products that are powder-coated can be touch-up painted with alkyd paint if necessary.
