Promenad – New Product! Portal

Design Eva Schildt

Promenad Portal makes outdoor environments clearer and more welcoming. With generous proportions, wide enough for two wheelchairs to pass side by side, it creates a sense of room and marks transitions between different parts of a garden or courtyard. The portal can serve as an entrance, a landmark, or the end point of a walking loop, supporting orientation and variety. The simple, classic form in stainless steel is durable and easy to assemble, while adding structure and dignity in settings where accessibility is essential. The Promenad series is developed by Eva Schildt in close collaboration with Anette and Tina Blåberg at Good Garden, experts in health design for care and nursing environments.

FEATURES

 Designed for accessibility

Dimensions and weight

Width: 164 cm
Height: 252 cm
Depth: 54 cm

Product numbers and combinations

Ö75-02 Promenad Portal

Append to product number

METAL SURFACE FINISH

C for any color other than standard, starting cost added.

Standard colours

■ RAL 6009
■ RAL 9005

Materials and surface treatments

Steel

Nola uses high-quality steel with good strength in our products. Steel rusts if left untreated and must therefore be surface treated.

Electrogalvanized

Electrogalvanizing (also known as zinc plating) provides corrosion protection through the sacrifice of zinc ions. It is created via a zinc coating on the steel using an electric current.

Powder coating

Powder coating is a coating that is applied as a free-flowing, dry powder. Unlike conventional liquid paint, powder coating is usually applied electrostatically and then cured under heat or with ultraviolet light. The result is an even, hard-wearing coloured surface with the desired gloss level.

Maintenance

Powdercoated steel

Products that are powder-coated can be touch-up painted with alkyd paint.

Eva Schildt

The designer Eva Schildt was influenced by her upbringing in the Stockholm archipelago, which shows in her artistic work. Since graduating in furniture and product design at Beckmans College of Design in 2001, she has designed a wide range of things from furniture and textiles to packaging and exhibition displays. Eva also works as an interior architect.

Eva Schildt – Where Tradition Meets Functional Modernity

Based in Stockholm, Schildt is driven by the belief that our environment is in a constant state of change—a concept beautifully reflected in her nature-inspired designs. Her work seamlessly fuses classic elements with a touch of humble modernity.

Working with a diverse range of materials and techniques, Schildt effortlessly balances the art of craftsmanship with the precision of mass production. Her often sculptural designs burst with everyday humor, personality, and outstanding functionality, earning her international recognition. Among her celebrated creations are the iconic Constella and Äng from Klong.

You can experience Eva Schildt's work at Stockholm's National Museum and Gothenburg's Röhsska Museum.
