Regnskördartunnan Rain Barrel

Design Urbio

Rain harvesting systems conserve water that would otherwise be wasted. This contemporary rain barrel connects to gutters and drainpipes to fill itself during rainfall. The tap integrated into the container enables water to flow out when it is needed for irrigating plants or cleaning outdoor surfaces. Channelling rainwater into containers helps safeguard against damages that heavy rainfall can cause.

CERTIFICATION

Dimensions and weight

Ö13-85 Rain barrel Large

Volume: 500 Litres

Length: 75.5 cm

Width: Barrel: 75.5 cm. Overall width: 97.9 cm

Height: 105 cm excluding plinth. Total height: 131 cm

Weight: 136,5 kg

Ö13-86 Rain barrel Small

Volume: 180 Litres

Length: 89.5 cm

Width: Barrel: 60 cm. Overall width: 82.5 cm

Height: 50 cm excluding plinth. Total height: 76 cm

Weight: 93 kg

METAL SURFACE FINISH

C for any color other than standard, starting cost is added.

INSTALLATION TYPE

M for installation in pre-cast foundations.

Standard colours

Gris 2900 Sablé

Materials and surface treatments

Stainless steel

Stainless steel is an iron alloy with at least 10.5% chromium that often has good resistance to corrosion (rust) and other chemical attacks. A common misconception about stainless steel is that it does not rust at all; it can in fact corrode, especially in environments near the sea with high humidity.

Powder coating

Powder coating is a coating that is applied as a free-flowing, dry powder. Unlike conventional liquid paint, powder coating is usually applied electrostatically and then cured under heat or with ultraviolet light. The result is an even, hard-wearing coloured surface with the desired gloss level.

Assembly and placement

Installation in pre-cast foundations

Posts for installation in pre-cast foundations.

Delivered partially assembled.

Versions

Rain harvesting barrel of 500 liters and 180 liters respectively.

Standard color: Pig 2900 Sablé

Character

Functional rain harvester barrel in two different sizes, which collects and helps to use rainwater / stormwater.
