

Säby Planter

Design Martina Sovré

Säby is a robust, reinforced concrete planter made for year-round use. The planter can be fitted with a wooden trellis to promote the growth of climbing plants, vines and creepers. The reinforced concrete base are frost-proof, creating an environment suitable for perennials. Säby also provides an excellent means of creating a barrier, space divider, or screening off an outside area.

Dimensions and weight

Planter

Length: 213 cm

Width: 55 cm

Total height: 52 cm

Height of plinth: 10 cm

Weight: 480 kg

Wooden trellis

Length: 190 cm

Height: 190 cm

Append to product number

INSTALLATION TYPE

N for surface mount.

Standard colours

Materials and surface treatments

The planter is made in reinforced brushed concrete and sold in its natural light grey concrete colour, or alternatively, coloured anthracite or terracotta. The planter is made with stainless steel inserts and stainless bolts for attaching the trellis. The inner container is made in fibre-reinforced plastic fitted with four foldable metal hooks. The trellis is made in painted pine.

Assembly and placement

Freestanding

Freestanding product that is placed directly on the ground.

Surface mount

Can be bolted above ground, to the floor or to a cast-in-place foundation. Bolts not included.

The planter is fully assembled. The trellis is delivered in parts for easy assembly. The trellis can be mounted directly inside the planter or attached to the outside.

Can be moved with a pallet lifter.

Maintenance

The planter does not normally require maintenance. The trellis can be repainted with alkyl oil enamel as needed.

[Read more in our general maintenance advice at nola.se/en/care-and-maintenance](https://nola.se/en/care-and-maintenance)

Versions

The planter is available in grey, anthracite or terracotta, and can be purchased with the trellis or without it. If required, we can prepare the planter for drainage by drilling a hole with a diameter of 20mm.

Character

Säby is a robust, reinforced concrete planter fitted with a wooden trellis to promote the growth of climbing plants, vines and creepers.
