## Sjöstad Bench

Design Erik Österlund

Sjöstad is an example of public space design at its best. This park bench is designed to provide additional support along the armrests and backrest, providing those who need assistance with an independent means of sitting down and standing up. Sjöstad is made to accommodate a wide range of body types and mobilities, making it an efficient combination of contemporary form and ergonomic design. Sjöstad is also available as a bench and a table.

### CERTIFICATION

### FEATURES

 Designed for accessibility

**Dimensions and weight**

Length: 148 cm  
 Height: 46 cm  
 Sitting height: 46 cm  
 Depth: 42 cm  
 Weight 45 kg

**Individual dimensions**

The front legs: 40 mm x 40 mm  
 The back legs: 40 mm x 50 mm  
 The sub-frame is made in square pipe: 30 mm x 60 mm  
 Back slats: 118 x 32 mm  
 Seat: Wood components: 92 x 32 mm

**Product numbers and combinations**

U20-81 Sjöstad bänk

**Append to product number**

**WOOD AND FINISH**

EK for oiled oak.  
 MH for oiled mahogany.

A for teak on pine RAL 8028  
 E for oak  
 MH for mahogany

**Standard colours**

■ RAL 8028  
 ■ Gris 2900 Sablé

**Materials and surface treatments**

Cover-glazed Pine.  
 Oiled Oak.  
 FSC-labeled Sipomahogany.  
 Zinc plated and powder coated steel.

**Pine**

Nola's pine is of high quality and comes from sustainable forestry. Pine is an environmentally friendly, domestically produced material. Damaged or untreated pine is quite easily attacked by decomposition processes; therefore, it is particularly important to repair damaged surfaces.

### **Mahogany - FSC-certified**

FSC-marked mahogany is a wood with good durability in the outdoor environment. In addition, it retains its color tone better than, for example, oak and teak. Mahogany lives and moves, sometimes more than teak.

### **Oak**

Oak is a heavy, hard and medium tough wood. Moderately dimensionally stable in case of moisture changes. Oak wood blackens if it is exposed to moisture or wetness for a long time. However, it does not affect the other properties of the wood. Thanks to its hardness and toughness, the oak wood is suitable for furniture and other use in exposed environments.

### **Wood oil**

Wood oil provides good protection against the stresses of the outdoor climate and at the same time highlights the wood's natural appearance and properties.

### **Steel**

Nola uses high-quality steel with good strength in our products. Steel rusts if left untreated and must therefore be surface treated.

### **Electrogalvanized**

Electrogalvanizing (also known as zinc plating) provides corrosion protection through the sacrifice of zinc ions. It is created via a zinc coating on the steel using an electric current.

### **Powder coating**

Powder coating is a coating that is applied as a free-flowing, dry powder. Unlike conventional liquid paint, powder coating is usually applied electrostatically and then cured under heat or with ultraviolet light. The result is an even, hard-wearing coloured surface with the desired gloss level.

## **Assembly and placement**

Partly assembled. The seat and backrest should be attached to the frame with enclosed bolts.

Bolted to the ground.

## **Maintenance**

Painted pine can be repainted with alky oil enamel as needed. Oiled wood should be reoiled twice-yearly.

### **Oiled oak**

Oiled oak should be oiled twice a year for best protection. Good maintenance can never completely prevent stains from occurring, but oak that is not maintained will turn blacker and turn gray faster, but it still has a very long life. When re-oiling products, a finely boiled oil that penetrates the wood should be chosen over a film-forming oil.

### **Oiled mahogany**

Oiled mahogany should be oiled two times a year.

### **Powdercoated steel**

Products that are powder-coated can be touch-up painted with alkyd paint.

**[Read more in our general maintenance advice at nola.se/en/care-and-maintenance](https://nola.se/en/care-and-maintenance)**

**Versions**

Teak on pine, oiled oak or FSC- mahogany.

**Character**

Sjöstad provides additional support along the armrests and backrest, giving those who need assistance an independent means of sitting down and standing up.
