Solaris Planter

Design Almén Gest Design

This multi-faceted planter is a striking geometric form that uses light and shadow to highlight its angled surfaces. Crafted in powder-coated sheet steel, the planter is lightweight and strong, and provides a striking complement to architectural settings. Solaris' sleek shape provides a potent contrast to organic shapes.

Dimensions and weight

Small version Ö13-63/50 Length: 50 cm Width: 50 Height: 50 cm

Medium version Ö13-63/60

Length: 60 cm Width: 60 cm Height: 60 cm

Large version Ö13-63/70

Length: 70 cm Width: 70 cm Height: 70 cm

Product numbers and combinations

Ö13-63/50 Solaris 50 x 50 cm
Ö13-63/60 Solaris 60 x 60 cm
Ö13-63/70 Solaris 70 x 70 cm

METAL SURFACE FINISH

V for white Ivoire Blanche.

S for black Noir 2200 Sablé.

C for any color other than standard, starting cost is added.

Standard colours

lvoire Blanche Noir 2200 Sablé

Materials and surface treatments

Solaris Planter is made of steel and pre-treated with iron phosphating before being surface treated with a thermosetting modified epoxy powder, providing a very smooth levelling and substrate

wetting, excellent corrosion protection and adhesion with the topcoat. The planter is then powder coated.

Steel

Nola uses high-quality steel with good strength in our products. Steel rusts if left untreated and must therefore be surface treated.

	Powder coating
	Powder coating is a coating that is applied as a free-flowing, dry powder. Unlike
	conventional liquid paint, powder coating is usually applied electrostatically and
	then cured under heat or with ultraviolet light. The result is an even, hard-wearing
	coloured surface with the desired gloss level.
Assembly and placement	Freestanding
	Freestanding product that is placed directly on the ground.
	Fully assembled.
Maintenance	Powdercoated steel
	Products that are powder-coated can be touch-up painted with alkyd paint.
