Solflak Seat

Design Veronika Borg

Sunbed provides a comfortable seat where bright colours can be enjoyed on even the gloomiest days. The smooth fiberglass surface creates a comfortable and cosy outdoor seat. The sides taper downwards to enable water to run off efficiently. Sunbed's striking profile makes it an attractive feature in city parks, indoor courtyards, beachfront and waterside areas.

CERTIFICATION

Dimensions and weight

Height: 50,5 cm
 Sitting height: 50,5 cm
 Depth: $\varnothing 200$ cm

 INSTALLATION TYPE
 N for surface mount.

Standard colours

 RAL 1023

Materials and surface treatments

The top is made in 8 mm gel-coated fiberglass. yellow RAL 1023.

Plastic / Fiberglass

Glass fiber is often used as reinforcement in plastics to increase rigidity by coating a glass fiber fabric with a plastic, usually a polyester, which hardens and binds the glass fiber together.

Assembly and placement

Surface mount

Can be bolted above ground, to the floor or to a cast-in-place foundation. Bolts not included.

The seat is assembled and ready to be bolted to the ground at four attachment points.
