Tin Litterbin

Design Mia Cullin

The Tin litterbin is a universal design – its streamlined profile and functional shape are immediately recognisable. Tin meets the needs of busy places, making it a popular choice for shopping centres and schools. The lid is available in a choice of openings and colours, and fitted with a hinge latch that enables it to remain open while being emptied. Texts, such as ‘Plastic’, ‘Glass’, ‘Paper’ and ‘Waste’ can be laser-cut into the front.

CERTIFICATION

Dimensions and weight

Length: 40 cm

Width: 40 cm

Height: 86 cm

Weight 35 kg

Volume: 80 L

The sheet steel is 2 mm thick.

Product numbers and combinations

Ö16-75A Tin papperskorg med rektangulärt hål.

Ö16-75B Tin papperskorg med runt hål.

Ö16-75A/T Tin papperskorg med rektangulärt hål och text.

Ö16-75B/T Tin papperskorg med runt hål och text.

Append to product number

METAL SURFACE FINISH

G for lid painted in light grey Gris 2150 Sablé.

O for lid painted in Orange RAL 2004.

C for any colour other than standard, for a start-up fee.

P for the word "Paper" laser-cut into the front.

B for "cans".

Ö for "different materials".

Standard colours

 RAL 2004

 Gris 2150 Sablé

 Ivoire Blanche

Materials and surface treatments

Steel

Nola uses high-quality steel with good strength in our products. Steel rusts if left untreated and must therefore be surface treated.

Electrogalvanized

Electrogalvanizing (also known as zinc plating) provides corrosion protection through the sacrifice of zinc ions. It is created via a zinc coating on the steel using an electric current.

Powder coating

Powder coating is a coating that is applied as a free-flowing, dry powder. Unlike conventional liquid paint, powder coating is usually applied electrostatically and then cured under heat or with ultraviolet light. The result is an even, hard-wearing coloured surface with the desired gloss level.

Assembly and placement

Freestanding

Freestanding product that is placed directly on the ground.

Fully assembled.

Maintenance

Powdercoated steel

Products that are powder-coated can be touch-up painted with alkyd paint.

Versions

Can hold up to 80 liters.

The lid is available in light grey Gris 2150 Sablé or orange RAL 2004 (fine structure) and with either round or rectangular openings. Text can be laser-cut into the front if required - please contact Nola for further information.

Character

Tin litterbin is made with a streamlined profile and functional shape that suit a wide variety of settings and applications.
