Work Lounge Swivel Armchair

Design SuperLab & Charlotte Petersson Troije

Work Lounge is a response to society's rapid expansion and the need for functional and practical outdoor workplaces. A workstation with a swivel seat in soft dry foam, with a laptop-adjusted table. The pieces also have an extra high, but slightly transparent back rest, for a sense of privacy. Work Lounge is developed in collaboration with Superlab and Charlotte Petersson Troje.

FEATURES

↻ Swivel function

Dimensions and weight

Width: 90 cm

Height: 145 cm

Sitting height: 45 cm

Ø: 84-87,4 cm se monteringsanvisningen för fler mått

Depth: 84 cm

Width with table: 91 cm. Depth: 69 cm. Height: 145 cm. Seat height: 44 cm. Weight: 50 kg

Back plate in patterned aluminum sheet. Powder coating satin gloss 30 satin.

Tabletop in compact laminate.

Seat upholstered with Dry Foam. The cushion is covered with a dyed outdoor fabric in acrylic from Sunbrella. Specify the fabric you want for the Work Lounge.

The fabric in the pictures is from Sunbrella. global.sunbrella.com

Steel

Nola uses high-quality steel with good strength in our products. Steel rusts if left untreated and must therefore be surface treated.

Electrogalvanized

Electrogalvanizing (also known as zinc plating) provides corrosion protection through the sacrifice of zinc ions. It is created via a zinc coating on the steel using an electric current.

Powder coating

Powder coating is a coating that is applied as a free-flowing, dry powder. Unlike conventional liquid paint, powder coating is usually applied electrostatically and then cured under heat or with ultraviolet light. The result is an even, hard-wearing coloured surface with the desired gloss level.

Compact laminate

Compact laminate is a sheet material made of kraft paper and phenolic resins, pressed together under heat and extreme pressure. The material is completely water resistant.

Assembly and placement

Freestanding

Freestanding product that is placed directly on the ground.

Surface mount

Can be bolted above ground, to the floor or to a cast-in-place foundation. Bolts not included.

The armchair is delivered assembled.

Maintenance

The cushion can be cleaned with normal detergents.

Powdercoated steel

Products that are powder-coated can be touch-up painted with alkyd paint.

Compact laminate

Compact laminate is very a strong and heavy material. It does not normally require maintenance.

Versions

Will be updated.

Examples

Courtyards, roof terraces, foyers, libraries

Character

High and embracing swivel chair with upholstered cushion and side table for breaks or outdoor work.

Designers

SuperLab

Superlab the company was founded in 2014 as an experimental design laboratory with the main goal to study the future workplace and the furniture design of tomorrow.

Charlotte Petersson Troije

Charlotte Petterson Troije is a research student in Urban studies from Malmö University. Petersson Troije has since 2010 focused her research on how to combine urban green areas with the daily life of workers. This resulted in the project “Stick ut Malmö” in 2017, where Petersson Troije presented research regarding the different requirements and needs that are necessary to work outdoors. Working outside can result in an increase in energy and inspiration, less stress and greater conversations.

The cushion is stuffed with 'Dry Foam' and upholstered in fabric made of dyed acrylic from Sunbrella. The cushion dries instantly and is suitable for outdoor use. The fabric is also UV-resistant and easy to keep clean.

The desktop is made of light grey high-pressure laminate with a black core.
