ZigZag Litterbin

Design Eva Herdin

The sides of the ZigZag litterbin are perforated with a repeating pattern of zigzag shapes, making it as lightweight as it is attractive. ZigZag corresponds to designs such as Kvadrat and can be paired with the ZigZag ashtray, giving it a wide range of combination possibilities.

Materials and surface treatments

Materialspecifikation för askkopp: Se kategori Askkoppar.

Steel

Nola uses high-quality steel with good strength in our products. Steel rusts if left untreated and must therefore be surface treated.

Aluminium

Aluminum is a soft light metal that is silvery to gray in color. Depending on the alloy, aluminum usually has good corrosion resistance. It is common for the aluminum to be extruded into tubes or rolled into a plate in the desired material thickness.

Electrogalvanized

Electrogalvanizing (also known as zinc plating) provides corrosion protection through the sacrifice of zinc ions. It is created via a zinc coating on the steel using an electric current.

Powder coating

Powder coating is a coating that is applied as a free-flowing, dry powder. Unlike conventional liquid paint, powder coating is usually applied electrostatically and then cured under heat or with ultraviolet light. The result is an even, hard-wearing coloured surface with the desired gloss level.

Assembly and placement

In-ground

Cast in ground.

Surface mount

Can be bolted above ground, to the floor or to a cast-in-place foundation. Bolts not included.

Mounted to wall

Bolted in place to stand/wall bracket.

Bolts for walls not included.

Fully assembled.

Maintenance

Powdercoated steel

Products that are powder-coated can be touch-up painted with alkyd paint.

Versions

Available with a round opening or hinged lid, and can be combined with an ashtray. The litterbin is made in a wall-mounted version or supplied with an attachable post that fits into a freestanding concrete base or can be cast into concrete.

Character

ZigZag is a low-profile, lightweight litterbin with a wide range of combination possibilities.
