### Installation on ground

Chairs and table are completely free standing, but can be attached to ground if installed in an exposed area or if fire safety rules require it. All pieces in the group have foot plates for mounting with 4 M8 bolts. Hole pattern is shown on respective product information pages

### Mounting on wood surfaces

Predrill and install with wood screws

### Installation on paving stones

Install concrete footers under footplates. Drill footers for chemical anchors or expanders. Do not allow sand between footplates and footer when installing.

### Installation on concrete or solid stone

Install using chemical anchors or expanders  
Installation using expanders enable a removable attachment
