	Sheet code:	PAAR091
"AURORA" Table	Drawing code:	Designer:
	Revision:	Bellitalia Design Department 22/01/2019
	Product:	Table model "AURORA", composed by a monolithic table with triangular section and a slight cambering on the superior surface to ease the water discharge. The product belongs to the family of Ultratense Concrete® products, employing the full potential of this innovative technology and its outstanding resistance. The result is a light and elegant product, characterised by folds having an ergonomic, minimal and rigorous logic, and supported by a central profile, which arises from the rear surfaces without changing the overall aspect. The table can be combined with the "ALBA" bench.
	Dimensions:	length : 2250 mm; width: 900 mm; maximum height: 750 mm; total weight: about 479 kg.
A-A	Material:	The product is manufactured in UTC® (Ultratense Concrete®), a material belonging to the UHPC class (ultra high performance concrete); a high performance concrete material registered by Bellitalia® and supplied in different colours: blue, white and other colours (see material sheet).
	Reinforcing:	No reinforcing.
	Finishing:	All surfaces are smooth natural; visible surfaces are covered with a transparent shiny or opaque anti-decay coating. All edges are rounded or made blunt (please see respective material sheet).
	Handling:	Use appropriate equipment when handling.
90 <u>A</u> 2070 90	Installation:	The bench can be simply placed on the flooring, or fastened to the ground through thread bars and a chemical anchor, for enhanced stability and security.
	Notes:	Slight variations in colour and finishing, as for example micro-cracking, different shades on surfaces or rising of oxides, are natural phenomena related to the products' manufacturing and maturing processes. The colour shown in the samples is just approximate, and different shades of colour shall not be intended as nonconformity of the product. Bellitalia will not accept claims or demands for damages related to colours variations, as they belong to the material's inner characteristics and depend on environmental conditions during the manufacturing and maturing processes.
